Welcome to SheSafe!

SheSafe is your safety buddy emergency assist App, which is made to ease your mind and offer vital assistance when you need it most. Because we know how important it is to keep safe, we have developed a user-friendly, feature-rich mobile app that can assist you in unexpected circumstances.

Sending emergency messages, sharing your whereabouts in real time with trusted contacts, and even activating a panic mode with audio recording are all made possible with SheSafe. Additionally, the app allows you to manage your emergency contacts and escape awkward situations by using a fake call option.

The purpose of this manual is to assist you in getting started. From login/sign up to the software to utilising all of its features, we'll guide you through every step. SheSafe is created for your privacy and security in mind, so you will be able to rest easy knowing that your data is safe. Our goal is to help you remain in touch with the people who are most important to you and improve your safety.

For better navigation, there is help on every screens.

Welcome to SheSafe!

BRITISH UNITED COLLEGE
